Overview

The First International Conference on Simulation Tools and Techniques for Communications, Networks and Systems (SIMUTools 2008) will be held in March 3-7, 2008, Marseille, France. This is an exciting forum for researchers, scientists, engineers, and managers working in the area of communications, networks and systems. The conference will address all aspects of simulation modeling and analysis. In particular, emphasis will be given to topics of methodology, tools, applications, and practices.

What to submit

We solicit workshop proposals on new and emerging topics in methodology, tools, applications, and practices. A proposal should focus on a specific theme of current interest and shall be able to attract high-quality submissions. A proposal can be a maximum of 2 pages long and should clearly identify the theme and specific topics of interest which define the scope of the workshop. The proposal should also include the workshop chairs and a preliminary list of program committee members.

Submission guidelines

Please send workshop proposals, no later than September 21, 2007, by email (in ASCII or PDF format) with subject "SIMUTools 2008 Workshop Proposal" to the workshop co-chairs, Dr. Kejie Lu and Dr. Hua Zhu. The email address is workshop.simutools@icst.org

Important Dates

- Workshop proposal due: **September 21, 2007**
- Acceptance Notification: **October 1, 2007***
(* We will send a notification as soon as the proposal is approved, which can be earlier than October 1, 2007.)
- Workshop data: **March 3-7, 2008**
